Job Description

Job Description & Main Duties

We are seeking a detail-oriented and organized Accountant to manage our financial systems and data. The successful candidate will perform some or all of the following duties:

Tasks

• Identify and assess clients' financial goals, objectives, and accounting requirements.

• Plan, establish, and administer accounting systems and procedures for clients.

• Examine and analyze clients' financial records, general ledgers, journal entries, bank statements, and supporting documentation.

• Prepare and analyze financial statements, including balance sheets, income statements, and related financial reports.

• Ensure the accuracy and completeness of financial information and compliance with applicable accounting standards, procedures, and internal controls.

• Prepare financial information and reports for individuals, businesses, and other organizations.

• Prepare reports on audit findings and recommend improvements to clients' accounting systems, internal controls, and management practices.

• Assist in planning and executing financial statement audits, including examining supporting documentation, performing

audit procedures, and preparing audit working papers.
• Participate in compilation and review engagements and prepare related financial statements, supporting schedules, and working papers.
• Develop, evaluate, and maintain financial reporting procedures and internal control systems.
• Examine financial accounts and records and prepare corporate and personal income tax returns and related supporting schedules.
• Analyze financial statements, financial documents, and reports to identify variances, discrepancies, and areas for improvement.
• Provide financial, business, and taxation advice to clients under the supervision of experienced Chartered Professional Accountants.
• Prepare year-end adjusting journal entries, account reconciliations, and supporting financial statement schedules.
• Recommend improvements to accounting procedures, financial reporting practices, and internal controls.
• Assist in training and supervising junior accounting staff, as required.
Employment Requirements
• Education: A university degree in accounting, finance, or a related business discipline is required.
• Experience & Certification: Applicants must be currently enrolled in a recognized Chartered Professional
• Accountant (CPA) professional education program, have completed an approved professional accounting training program, or hold a recognized professional accounting designation. A minimum of three years of relevant professional accounting experience is required, preferably in a public accounting environment.
