Concrete Form Carpenter

About Us:

Bretoba Contracting Ltd. is a foundation-to-finish construction company known for quality work, collaborative leadership, and strong community values. As our work has expanded in project management and development, and our leadership team supports the operations of multiple businesses.

Relationships are at the core of everything we do. We believe that the small things —like remembering a birthday, following up personally with a client, or taking the time to celebrate team milestones — builds trust and long-term success. We’re looking for someone who shares that belief and wants to bring it to life in a meaningful, behind-the-scenes role.

We are seeking a skilled Concrete Form Carpenter to join our team. The ideal candidate will have a strong background in concrete work. The Concrete Form Carpenter will smooth and maneuver freshly poured concrete to meet client and contract specifications, including application curing or surface treatments of concrete materials to install, maintain, and renovate various structures while adhering to safety standards.

Job Description

Key Responsibilities:

Checking formwork, granular base and steel reinforcement materials and directing the placement of concrete into forms or onto surfaces according to grade to meet client specifications.

Filling hollows and removing high spots to smooth freshly poured concrete.

Operating power vibrator equipment to compact concrete.

Levelling top surface of concrete according to grade and depth specifications using straightedge or float.

Imparting desired texture and finish to concrete surfaces using hand and power tools.

Installing anchor bolts, steel plates, door sills and other fixtures in freshly poured concrete.

Applying hardening and sealing compounds to cure the surface of concrete.

Waterproofing, damp-proof and reconciling broken concrete surfaces.

Repairing, resurfacing, and replacing worn or damaged sections of floors, walls, roads and other concrete structures.

May be required to direct the work of other construction workers to achieve desired outcomes of job.

Key Qualifications:

High school diploma; 2–4-year apprenticeship, or 3+ years’ directly related experience in cement finishing

Experience working in a fast-paced work environment

Capable of handling/lifting heavy loads (more than 100 lbs)

Capable of carrying out repetitive activities in physically demanding work environment

Attention to detail in manual dexterity

Working under pressure to meet client deadlines

Have good hand-eye co-ordination and sound discrimination

Language: English (minimum CLB 4)

Requirements:

Basic tools

Steel-toed safety boots

Rain Gear

Gloves

Benefits:

On-site amenities

Worker housing provided for right candidate

Company events

Wellness program (after probationary period)

Deferred profit-sharing plan (DPSP) (after the probationary period)

Wage range: $25 - $32/hour (plus potential for performance-based bonus or wage increase)

Hours 40 - 55 hours a week
