Job Description

- Assist the Controller in overseeing project-based accounting operations and financial reporting activities related to the company’s real estate development and construction projects
- Prepare monthly financial statements, project cost reports, account reconciliations, and supporting financial schedules for management review
- Monitor construction budgets, project expenditures, subcontractor costs, and project-related financial transactions to ensure financial accuracy, budget compliance, and cost control

- Review and reconcile project cost allocations, general ledger accounts, progress payments, and financial records associated with ongoing development projects
- Support month-end and year-end closing procedures, including preparation of working papers, reconciliations, and supporting documentation for active construction and development projects
- Assist in preparing project cash flow summaries, budget tracking reports, and internal financial reports related to ongoing construction and development activities
- Coordinate with project managers and construction teams to collect, review, and reconcile project-related financial information, cost records, and supporting documentation
- Assist in tracking project budgets, construction expenditures, and progress billings to support accurate project financial reporting and cost monitoring
- Maintain and improve accounting procedures, project financial tracking processes, and internal financial controls to support accurate financial reporting and efficient project operations
- Review supporting financial records, payment documentation, and project accounting information to ensure accuracy, completeness, and compliance with company procedures and reporting requirements
- Assist the Controller in ensuring compliance with accounting standards, taxation requirements, project financing obligations, and corporate financial policies
- Coordinate financial documentation and supporting schedules for external accountants, auditors, lenders, and financial institutions related to project financing, audits, and reporting requirements
