Company Description:

Wescor Contracting Ltd. handles various projects including large-scale commercial and industrial builds, to tenant improvements and custom homes. Along with standard wall and ceiling assemblies, Wescor’s specialize in acoustic ceiling systems and a wide variety of finished wall and ceiling systems such as demountable wall systems, acoustic wall panels, cloud ceiling panels, linear wood ceilings and metal soffit ceiling systems.

We are looking for a skilled and dependable Construction Labourer to join our team. The successful candidate will contribute to a productive and safe work environment while supporting various construction activities.

## Job Description

Key Responsibilities:

• Load, unload, transport, and organize construction materials, tools, and equipment at various job sites.

• Assist skilled tradespersons with framing, wall and ceiling installations, and other commercial, industrial, and residential construction activities.

• Assist with the setup, installation, and dismantling of scaffolding, temporary structures, and construction site equipment.

• Measure, position, and prepare construction materials as directed by supervisors and skilled tradespersons.

• Operate basic hand tools, power tools, and light construction equipment as instructed and authorized.

• Mix, pour, and spread construction materials as required for various construction activities.

• Assist equipment operators with material movement and other site operations.

• Remove construction debris, organize materials, and maintain clean and safe work areas.

• Perform physically demanding tasks, including lifting and carrying heavy materials, repetitive bending, crouching, kneeling, and working at heights.
• Follow supervisors' instructions, workplace safety procedures, and established construction site protocols.
• Work cooperatively with supervisors and other tradespersons to support safe and efficient construction operations.

Position Requirements:
• Education: No degree, certificate or diploma required.
• Minimum one (1) year of previous experience in general construction labour or a related construction environment.
• Familiarity with common construction tools, equipment, and general job-site procedures.
• Ability to assist skilled tradespersons with framing, wall and ceiling installations, and other construction activities.
• Ability to safely lift, carry, and handle construction materials weighing up to 50 pounds.
• Ability to perform physically demanding work, including frequent bending, kneeling, crouching, and prolonged standing.
• Ability and willingness to work at heights, on scaffolding, and in varying construction site conditions.
• Ability to understand and follow supervisors' instructions and workplace safety procedures.
• Strong communication, teamwork, reliability, and organizational skills.
• Ability to work efficiently in a busy construction environment and adapt to changing site requirements.

Your Skills:
• Ability to perform physically demanding work, including lifting and carrying materials weighing up to 50 pounds.
• Ability to work at heights, on scaffolding, and in varying weather and construction site conditions.
• Physical stamina to perform repetitive bending, crouching, kneeling, and prolonged standing.
• Familiarity with common construction hand tools, power tools, and safe material-handling practices.
• Ability to understand and follow verbal instructions, safety procedures, and directions from supervisors.
• Strong teamwork and communication skills when working alongside skilled tradespersons and other construction personnel.
• Ability to maintain an organized, clean, and safe work environment.
• Reliability, adaptability, and ability to carry out assigned tasks in a busy construction environment.
• Basic understanding of construction site hazards and workplace safety practices.
