Job Description

Applicants must have experience with and be able to effectively perform or assist with all or most of the following activities.

- Handling and moving of construction materials
- forming, pouring and spreading concrete
- framing with wood and metal materials
- insulating and sealing
- interior and exterior finishing
- demolishing
- using and maintaining hand tools, small powered tools and small mobile equipment
- performing other construction activities as required
- complying with safety guidelines and procedures

Applicants must demonstrate a high level of dedication to their work and must be punctual and dependable.

There is no specific education requirements. Being a registered apprentice in the carpentry trade is a benefit. A valid Canadian drivers’ license is also a benefit.

We operate in compliance with the Construction Industry employment standards and the ICI Wage scale for Manitoba.

Hours and days of work are highly dependent on the construction schedule of the specific project the employee is assigned to and weather conditions present at that location. Work will typically be performed in shifts of between 8 and 10

hours starting early morning and finishing early evening with a target of 40 regular hours per week. Project schedules or site availability may require work to be performed in different shift lengths, other times of day or over weekends and for more or less than 40 hours in the week. Company paid travel and overnight stays at work locations within a couple hours travel of Brandon are also a possibility.
