Job Description

Contro Valve Equipment Inc. is seeking qualified candidates for the position of Valve Repairer, Pipelines, with some duties as a Valve Spring Winder, at its facility in Brandon, Manitoba.

Job Responsibilities:

Set up and operate conventional and computer-controlled machine tools.

Check products for quality and other specifications.

Operate or tend automatic or multi-purpose machines to produce metal parts and metal products.

Clean, polish, file or otherwise finish products.

Fit and assemble components using hand and power tools.

Check and lubricate gas pipeline valves.

Install supports, valves, piping and control systems.

Clean and lubricate machinery and equipment.

Qualifications and Requirements:

College/CEGEP education or equivalent experience.

2 years to less than 3 years of relevant experience.

Experience with temperature, pressure, flow and level instruments.

Experience with valves and safety equipment.

Valid driver's licence.

Criminal record check, driving record check, basic security clearance, and driver's licence validity check.

Work Conditions:

Dusty, noisy and hot environment.

Physically demanding work involving heavy loads.

Extended periods of standing and a combination of sitting, standing and walking.

Relocation costs are not covered by the employer. Applicants must be willing to relocate if necessary.

Personal Suitability:

Excellent oral communication, organizational skills, reliability, dependability, accuracy, teamwork, and flexibility.
