Job Description

Job Duties:
• Prepare surfaces by cleaning, smoothing, and removing imperfections before applying finishing materials.
• Apply successive coats of joint compound to drywall joints, seams, and screw indentations using taping knives and trowels.
• Tape over joints using taping machines and embed tape in joint compound.
• Smooth out excess compound and allow coats to dry before applying additional layers.
• Sand and smooth drywall surfaces to achieve a uniform finish suitable for painting or decorating.
• Fill cracks, holes, and other imperfections in drywall surfaces.
• Install corner beads and apply joint compound to finish interior and exterior corners.

- Repair damaged drywall surfaces and perform patching and refinishing work.
- Measure, cut, and fit drywall materials as required for finishing and repair work.
- Operate hand tools, power tools, and drywall finishing equipment safely and efficiently.
- Maintain clean and organized work areas and follow workplace safety procedures.
- Inspect completed work to ensure compliance with quality standards and project specifications.
